

St Mary's Catholic Primary School
Our Explorer curriculum 2024-25

Our explorer's curriculum allows our children to enrich their learning and focuses on the whole child (Including their fitness, health, well-being and mental health) and ensures they explore outside of the classroom!

Our explorer curriculum also aligns closely to our school mission of Live, Love and Believe, where children grow to live a full life, love learning and believe in themselves and their abilities.

Heritage	Environment	Personal Development
