## Celebration of the word

Over 2000 years ago, Jesus saw the peoples' need, prayed and provided through an unbelievable miracle. Today He continues to provide for our hunger and need, especially in the Eucharist. Children will understand how we can offer the 'loaves and fishes' of our time, talents and prayer to Jesus. They will discover that He multiplies our offering and fills us with His love.

And taking the five loaves and the two fish, He looked up to Heaven and said a blessing over them. Then He broke the loaves and gave them to the disciples to set before the crowd. **Luke 9:16**

Dear families,

These weeks seem to flying by at school and we still have so many more activities to come. Yesterday we had another day of cricket workshops for all year groups, through chance to shine cricket. It is so wonderful to see all children have the opportunity to try and new sports and to develop their physical skills.

We haven't had many families sign up for the Amigo magic show on 9th July. This will be an amazing show that the whole family will enjoy so please make sure you secure your tickets via scopay for this event.

I would like to take the opportunity to remind those that are attending the festival this weekend that we will be open as normal on Monday. We want everyone to have a brilliant weekend but the expectation is that all children will be in school as usual next week. Anyone who doesn't attend on Monday due to anything connected with the festival (tiredness, heat stroke, sun burn etc) will be marked as unauthorized.

Next Tuesday (24th June) we will be practicing a whole school lockdown procedure. This is a requirement under Martin's law and is a government and local authority expectation. This will have the same feel as a fire drill, which all of our children are confident with. The only difference is that our practice will take place inside instead of outside. Teachers will be taking the time to explain this process and why it is important that we keep everyone safe. Children will not be told anything that will increase their anxiety about unknown people coming into our school but there will be conversations about why sometimes we need to be inside to stay safe i.e. an animal in the playground etc. This practice will ensure that we are compliant with this procedure and will also ensure that our children understand potential dangers and what we do as a school community to protect them.

Have a brilliant weekend

Mrs Broome

# Safeguarding for parents

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many games which we believe trusted adults should be aware of. Please visit [nationalonlinesafety.com](http://nationalonlinesafety.com) for further guides, hints and tips for adults.

## What Parents & Carers Need to Know about

# ROBLOX

Roblox is one of the most popular video games on the market. By 2020, the game's makers were claiming that more than half of children in the USA play it. As a 'sandbox' title, Roblox offers a huge amount of creative freedom: it lets players create their own gaming experiences with the Roblox Studio to build custom levels and games, which can then be shared with other players online. Roblox fosters creative thinking and enjoys a robust online community of fans.

### WHAT ARE THE RISKS?

#### CONTACT WITH STRANGERS

Roblox encourages players to communicate online (including a group chat facility). This could expose children to risks such as scammers, online predators, harassment, griefters and more. The in-game chat has some filters, but isn't perfect: players can still send harmful messages to others – such as general hostility – while predators can reach out to children directly.

#### PUBLIC SERVERS

Roblox has private or VIP servers which allow people to play exclusively with their friends, but this costs money. Most Roblox players will instead be on public servers that anyone can join. Servers can host games which focus on all kinds of aspects, including direct player interaction. Some games and servers, therefore, will put children more at risk of contact from strangers than others.

#### ONLINE DATERS

These are also called 'ODers' and are quite common in Roblox. An ODer is an individual who joins a game with the intention of finding someone to date online – and eventually meet in person. Such online dating is against the Roblox community guidelines, but this usually doesn't deter ODers. Some players built Roblox game worlds have even been designed with online dating specifically in mind.

#### IN-APP PURCHASES

Roblox is actually free to download and play, but bear in mind that there are some hidden costs. Players are encouraged to make purchases in the game, for example, using real money. People can also buy 'skins' (the in-game avatars) to spend on cosmetic items in the game, and some private or VIP servers also have a cost.

## Advice for Parents & Carers

#### SET PARENTAL CONTROLS

Roblox comes with several parental control options, which are explained well on the game's official website. It's essential to enter the correct date of birth for your child, as this allows Roblox to automatically apply the appropriate chat filters. The game also allows parents and carers to set monthly spending restrictions and monitor their child's account.

#### DISABLE PRIVATE MESSAGING

Roblox's private messaging function raises the risk of children being contacted by people they may not want to speak with – potentially leading to bullying, harassment, toxicity and scam attempts. The game allows you to disable messages from anyone who hasn't been added as a friend on your child's account.

#### PRIVATE SERVERS

If your child has genuine friends who they play Roblox online with, paying for a private or VIP server decreases the risk of contact from strangers. Even then, however, some players could invite other people – who might not necessarily be child-friendly – into the private server. If your child is a Roblox fan, it's important to talk with them regularly about who they are playing the game with.

#### MONITOR SPENDING

If they don't understand they're using real money, it's easy for children to accidentally spend a sizeable amount in the game. Using parental controls to place limits on their spending will help avoid any nasty financial surprises. Ensuring that you have two-factor authentication on your payment accounts also makes it harder for your child to spend money inadvertently.

#### DEALING WITH STRANGERS

At some point in their development, your child will need to learn how to deal with strangers online. Show them how to block and report any users who are upsetting them or asking uncomfortable questions. Talking to them about what's OK to discuss – and what they should never tell a stranger online – will help them understand how to communicate with others safely in the digital world.
